WHEELING, APRIL 26, 1889.

Tux railroads catch the Oklahoma boomers coming and going. It is a great time for the railroads.

Just now there is much talk about the descendants of George Washington. Was George, then, so shy after all?

Sons of the reformed Oklahoma boomer—
Backward, turn backward, time in thy flight;
Let us be home again, just for one night.

New York is talking about four-cent cars. There is probably not a line in a great city that could not make money at three-cent fares.

In spite of the bickering of the Four Hundred, the New York celebration promises to be a memorable affair. The military pageant will be particularly fine.

Bridgport, Connecticut, has a suit-club, the members of which shuffle off the mortal coil by lot at the rate of one a year. Three have already gone that way. That club has no need of an official fool-killer.

Pittsburgh's liquor license for three years is striking—and hosts of the applicants think they have been struck hard. 1887, 700 licenses; 1888, 274; 1889, 93. There is something intensely practical in the Pennsylvania law and its administration.

They wouldn't believe what was told them about Oklahoma, the poverty of a great part of the soil, the rush beyond reason, the hardships they must expect. Now their cry is, "Anywhere, anywhere out of Oklahoma! It has been a dreadful nightmare."

This annual dinner of the American Club of Pittsburgh, on Saturday evening, promises to be a notable affair. The American Club is one of the live political organizations of the country. Something of the same sort would be of advantage to West Virginia.

It is well for the credit of West Virginia that some of her thirty commissioners to the Centennial celebration will not attend. If every State were to be represented by thirty commissioners there would be some appearance of absurdity.

If young Capt. Murrell of the steamship Missouri isn't soon invited to take a first class passenger ship it will be because men who own that kind of property do not prefer the best. Such fine qualities as that young mariner possesses are wasted in freighting cattle and old rags.

Two French newspapers continue to say nice things of Mr. Whitelaw Reid, and Mr. Reid will continue to deserve their good opinion. One of the Paris newspapers concludes a complimentary notice by saying that Mr. Reid has succeeded, which shows him to be a man of character.

This interesting discovery has been made that examiners in the Pension Office were very active partisans of Mr. Cleveland during the late campaign. Does this surprise anybody? Isn't that what they were there for? We have an idea that their successors will not be entirely asleep when the next campaign comes along.

This Register howls because it was caught in the act of trying to introduce a religious issue into a political matter. Its leg is in its own trap, notwithstanding the howl. It is nothing short of a crime to endeavor to introduce a religious issue in a community where men of diverse religious views are on terms of the most sincere friendship.

Democrats would have us believe that the contest for the offices will breed dissensions in Republican ranks. It is a matter of history that little matters of this kind in the past have not disturbed the Republican party organization. The Democrats cannot say as much. Republicans are not built that way. How different is the history of the Democratic party.

Cincinnati has a fine School Board row on her hands, and the same is not creditable to her School Board. That body finds fault with the Superintendent, Dr. White, because he will not consent to be a mere figure head and let the School Board pack the schools with incompetent favorites in the thin disguise of teachers. The present need of Cincinnati seems to be a new School Board. Dr. White is one of the best schoolmen in the country. He is the father of the wide-awake editor of the Parkersburg State Journal.

The South and Protection.
The interview in to-day's INTELLIGENCER with Col. H. C. Parsons, of Natural Bridge, relates to a movement from which the South has everything to gain. Such a convention of Southern men as Colonel Parsons suggests should bring together the brains and the energy of a section which has the misfortune to be almost entirely misrepresented in Congress. The meeting, properly placed before the men of the South, would attract the best minds without regard to politics, for the real interest of the South in politics comes primarily from her interest in her industrial development.

Naturally the aim of the meeting would be to array against Free Trade all elements of the Southern people who believe in protecting the Home Industries. If the politicians will not represent the people, let the people take the floor and speak for themselves.
The utterance of such a convention as could be assembled would profoundly impress the country and be of very great benefit to the South. Name the time and place, and West Virginia will be there.

BREAKFAST BUDGET.

Montana Methodists are to build a \$400,000 University near Helena.
A flat says Mr. Howells in his story of "A Hazard of New Fortunes," in Harper's Weekly, is the negation of motherhood.

A Dr. Pillsbury has asked a Western court to change his name to one less indicative of his profession.—Pittsburgh Chronicle Telegraph.
As much as \$550 was paid for one window on Fifth avenue, New York, from which to view the centennial parade, and the rental of such places is advancing from day to day.

A Woman's Directory is to be published soon, giving the names and addresses of 30,000 Chicago women who belong to various religious, benevolent and political organizations.

"What are you doing, Patrick?"
"Wakin' up your husband, ma'am."
"But why?"
"Because it's ten o'clock, ma'am, when I was to give him the thrump to make him shlap."—The Epoch.

The largest taxpayer in Germany is Herr Krupp, of Essen, who pays \$2,480 on an income of \$219,000, and next comes Baron Willy de Rothschild, of Frankfurt-on-Maine, with an income of \$205,000 and a tax of \$2,940.

She—What does you think of our dunces?
He—"Oh, you're just the cheese, so to speak."

She—"And will you love me when I mold?"
"Terre Haute Express."

When old Red Cloud visited President Cleveland he came in his grandest colors and his eagle feathers. When he called on President Harrison on Thursday he was dressed in citizens' clothes and an old slouch hat. Wanted to look like an Indian.

It is alleged that almost all the turquoises that have been sold during the past ten years have been cheap imitations. They are said to have been manufactured by a Peruvian syndicate, which has flooded the Ninety-Ninth Street with 100,000 of the fraudulent stones.

The decorations of the Metropolitan Opera House for the Centennial ball and banquet in New York are nearly complete. They are said to be elaborate. The dances and the menu have been announced. Mayor Grant says that one of the stands at Union Square must be free for women and children.

What do you suppose is the value of Melsheimer's pictures to be shown at the big show in Paris this season? Only \$2,000,000. As the master with his great hand holds and guides the boy's hand when he teaches the lad his pothooks, so, as it must be, the good Lord above all works the brush of the painter who thus commands the admiration of mankind.

Mrs. Hetty Green, once one of the shrewdest operators in Wall street, is perhaps the richest woman in America, her wealth being estimated to be anywhere from \$40,000,000 to \$50,000,000. She inherited \$10,000,000 from her father, Edward Mott Robinson, who laid the foundation of his fortune in the fishing business. Her husband, E. H. Green, had coined money in the China trade before he married her, but his wealth is modest compared with hers. He is almost 6 feet 6 inches tall.

Governor Porter, the new Minister to Italy, is said to have the same disease in his foot that once troubled the late Vice President Hendricks. We hope so, for it was not serious. All the city physicians gave Hendricks up, when an old country doctor from up about Goshen called to see him, and showed the sore too. The old man looked at it through his specs, took out his jack-knife and lanced it, and he tied it up in a chew of tobacco. When asked what ailment Hendricks he replied "A bite on his big toe." The toe got well. Governor Porter should look at that old fellow at once.—San Francisco Alta.

Bits from Big Cities.
Baltimore's new tax rate \$193.
Portland, (Ore.), has twenty millionaires.

Mexico City has ordered electric wires underground.
Washington, D. C., has 20,000 more women than men.

In San Francisco work has been begun on the great Lock bath.

Chicago will spend \$60,000 in fire-works on Centennial night.

In San Francisco some street cars are propelled by compressed air.

The signs of Broadway, New York, run to brass, and are said to have cost \$20,000,000.

Bits from Little Cities.
Novada, Ia., has struck natural gas.

At Steubenville "drunks" break stone at a cent a day.

Mr. Buckenbiller is a candidate for Postmaster at Oshkosh.

Louisiana, Mo., has a chess club. The members all talk at once.

In Madisonville, Ky., the authorities have passed an ordinance forbidding brass bands.

A man at Orange City, Fla., gathered 2,000 quarts of berries from two six-year-old mulberry trees.

A Quiet Place.

An exchange says: A nervous man walked into a store the other day and sat down for an hour or so, when a clerk asked him if there was anything he could do for him. He said he didn't want anything. The clerk went away and he sat there half an hour longer, when the proprietor went to him and asked if he wanted to be shown anything. "I just want to sit around. My physician has recommended perfect quiet for me, and says above all things I must avoid being in crowds. Noticing that you did not advertise in the newspapers, I thought that this would be as quiet a place as I could find, so I just dropped in for a few hours' isolation." The merchant picked up a bolt of paper cambric to bring him, but the man went out. He said all he wanted was a quiet life.

Poultry Profitable.
More meat and better meat, and in a shorter space of time, can be produced from poultry than from any other source, and the supply from poultry equals that of any other class of live stock. It gives an opportunity to those of limited means, and the profits are always large in proportion to the capital invested.

A GREAT many people feel themselves gradually failing. They do not know just what the matter is, but they suffer from a combination of indescribable aches and pains, which each month seem to grow worse. The only sure remedy known that will counteract this feeling and restore perfect health is Brown's Iron Bitters. By rapid assimilation it purifies the blood, drives out disease, gives health and strength to every portion reached by the circulatory system, renews wasted tissues and restores robust health and strength.

Mike McGrath is on his feet so much of the time in the Senate that he has to buy two pairs of shoes to one pair of trousers.

AS OLD AS THE NATION.

Mrs. Arnold was a School Girl When Washington was inaugurated.

Cincinnati Inquirer.
The interest that is manifested of late in longevity calls the attention of this community to the life of Mrs. Margaret Arnold, who resides with her son, Henry Arnold, on a well known 1,000 acre farm, about seven miles east of Washington Court House, O. The lady is 112 years old. Her maiden name was Margaret Kiser, and she was born near Richmond, Va., Jan. 1, 1777.

We doubt if there is a family in the United States that can show such a record for longevity:

Agnes Elizabeth Hilliard, 112 years.
Margaret Arnold, 112 years.
Susan Bailey, 104 years.
William Kiser, 104 years.

Total number of years—440.
Average age—110.

This array of figures would be difficult to believe if we did not know them to be correct. Each of these centenarians lived under the administration of every President of the United States and during most of the eventful periods of the nation's history.

NEST NO. 1.
A Few Encouraging Figures for Lovers Newly Liked.

Brooklyn (Mass.) Gazette.
What would it cost to go to house-keeping? The Gazette has learned these figures from various merchants and will answer for newly married couples of an economical turn of mind:

Furnishings for four rooms—\$250.
Rent for month—\$10.
Food for month—\$10.
Groceries per week—\$4.
Meats and provisions per week—\$4.

Total—\$258.

The management of home is a place for women and some men, too, to learn how to transact business. If they are economical there, they will be in other walks of life.

Happy Homes.
Here's a health to the wives and mothers who sit in our households today. When we are glad when they brighten for others. The housewife who glows with joy, and whose heart holds the fulness of bliss. That banishes shadows and sadness.

What need we ask more than this? But—how can this happiness be kept? What shall protect those we love,—those who make a Heaven of the Home,—from the ravages of disease that is often worse than death?—This is, in fact, a lingering death? The question is easily answered: Dr. Pierce's Favorite Prescription—the standard remedy for all of those peculiar diseases to which women are subjected,—is what must be relied on to preserve the health of wives and mothers.

It cures those diseases, and it cures them. It is a blessing to women and therefore a national blessing, because it gives health to those about whom the happiness of home centers, and the strength of a nation is in its happy homes.

"Years and years will roll by ere his friends will cease to forget him; the pathetic comment of Cleveland newspaper in a mortuary editorial.

Mercurial Poison.

Mercury is frequently injudiciously used by quack doctors in cases of malaria and blood poisoning. Its after effect is worse than the original disease. H. B. H. (Dietetic Blood Balm) contains no mercury, but will eliminate mercurial poison from the system. Write to Hiram Balm Co., Atlanta, Ga., for book of convincing proof of its curative virtues.

Wm. Richmond, Atlanta, Ga., writes: "My wife could hardly see. Doctors called it syphilis. It is a cruel disease. Her appetite failed. She had pain in her joints and bones. Her kidneys were deranged also, and no one thought she could be cured. Dr. Gilliam recommended H. B. H., which she used until her health was fully restored."

C. F. B. Jones, Atlanta, Ga., writes: "I was troubled with copper-colored eruptions, loss of appetite, pain in back, debility, nervousness, loss of hair, sore throat, and great nervousness. H. B. H. put my system in fine condition."
